Foldable Crate Solutions

Stackable | Foldable | Space Savers

FC-503020-001 - 27L

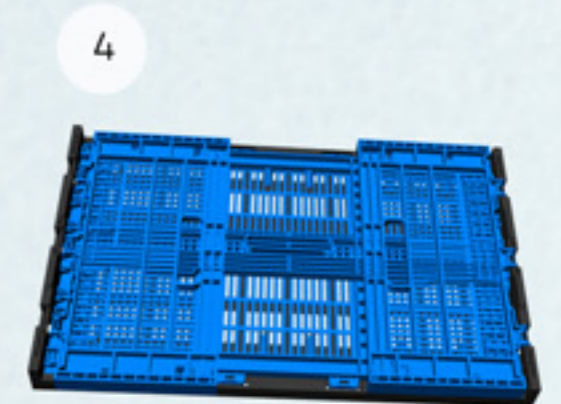

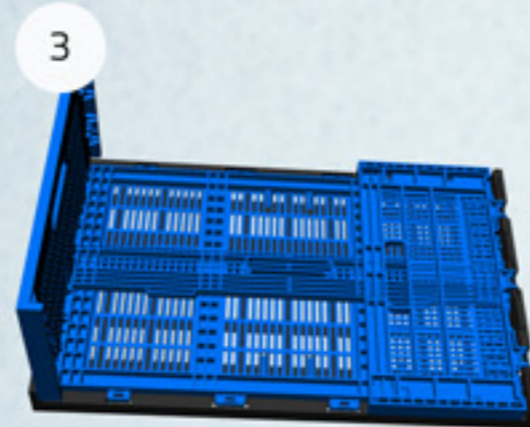

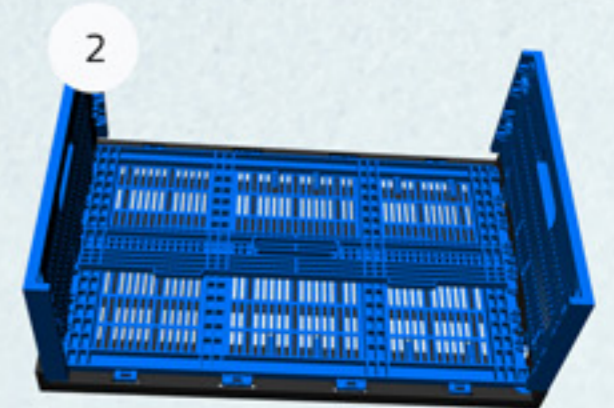

Item No.:	FC-503020-001
Material:	PP / HDPE
Size:	500 X 325 X 200 MM
Color:	■ ■

Box specifications:

Dimensions, External	500 x 325 x 200 mm
Dimensions, Internal	475 x 300 x 180 mm
Dimensions, Folded	500 X 325 X 40
Volume, external	32 L
Volume, internal	27 L
Space Efficiency	80% (Folded / Open)
Tare weight	1.5 kg

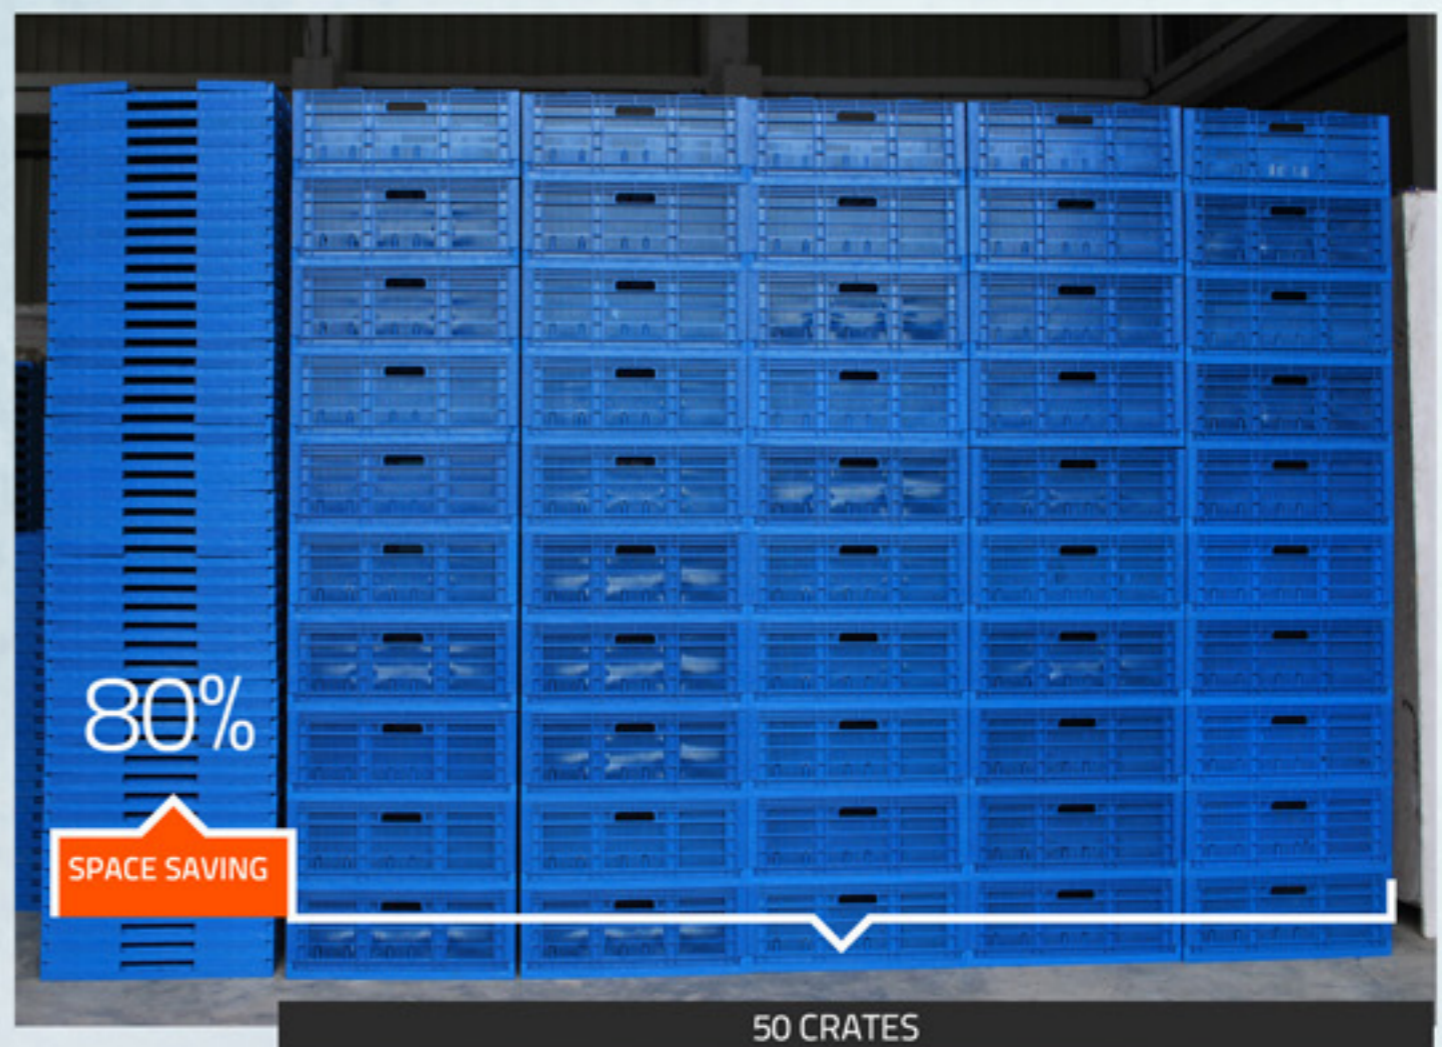

SPACE SAVER - WAREHOUSE

SPACE SAVING

50 CRATES

Environmentally Friendly, yet **Cost Effective**

Applications

Fruits & Vegetables
Dairy Products
Sea Foods
Food Processing / Cold Storage
Retail - Display Front End
Ice Creams

Benefits

Fold C crates are featured by low weight and ergonomic design.

They guarantee easy transport, stable stacking and safe storage of fresh food products as well as industrial products.

High life expectancy, versatile usability and strict compliance to food-contact regulations mean that crates meet the highest standards of the food industry.

Fold C crates can be manufactured using heat-resistant, food-contact approved materials.

designed handgrip

Foldable Plastics Reusable Crates

Foldable crates are used principally to transport fruit, vegetables, meat and dairy products directly from the producer or processor to the store without the contents being rehandled.

Our Fold C plastic crates fold down and occupy less space when empty. This makes them cost effective to transport and store. All our foldable storage crates feature perforated sides and bases to allow air circulation, making them ideal for carrying fresh fruit and vegetables.

Collapsible plastic crates are strong, durable, and resist rough treatment. They are easy to fold down and comfortable to grip, facilitating swift, simple handling. Reusable, returnable and recyclable, collapsible plastic crates are compatible with dollies, conveyors, and other warehouse equipment.

Advantage

- Stacking Capability: Saves Space and Money
- Reduced cost of transportation of empty crates
- 80% Space Savers
- Maximum airflow to keep the content fresh
- Damaged Parts can be replaced
- Shelve use in retail space, also provide proper visibility.
- 100% Recyclable, Environment Friendly
- Ease of cleaning and disinfecting
- Modern Supply Chain Management: Perfect integration of RFID Tags (Optional)

BRIDGING THE GAP

Application:

- Handling on the farms
- Logistics
- Warehouse & Cold Storage
- Retail outlets
